Dear Mr. Jeffrey Bezos,

firstly, I'd like to introduce myself, because I find it important for you to know, why I demand compensation from Amazon.

My company: EHRLICH PROPHYLAXE - DIAGNOSE & THERAPIE

- 1. **EHRLICH:** my surname and for everyone else as a security, that everything's honest.
- 2. **PROPHYLAXE:** the protection before anything happens. (prevention)
- 3. **DIAGNOSE:** with our heart- and body-fat-measurements (ExcellenceHealthStation.de)
- 4. **THERAPIE:** the absolute therapy with hydrosun (HydroSun.net) and own supplements (e.x. BIOTIVIA® EhrlichBio® BioForge® etc.)
- 5. For me it's not about making money, but finding solutions for us to grow old healthy.

And with Biotivia we are already on topic, because since Octobre 2010 Amazon.de GmbH sells american supplements in Germany and Europe, thereby violates the trade mark laws and commits economic and property crime (competition law). I have fought against this without success and just now, due to a more aggressive campagne, succeeded with Amazon.de not selling any american Biotivia products (Biotivia LLC) in Germany anymore. (but UK still sells to Germany) My trademark (Biotivia.mobi) was dragged through the mud and nothing worth anymore, because every Affiliate Partner of Amazon.de abused it.

29 month I will now enforce with charges inkl. claim for compensation and incoming and outgoing goods of Amazon.de will proove how many million products are sold in Germany (on with Amazon.de GmbH earn € 10,- a piece)

With Germany Amazon reached a grand market and is on everyone's lips right now, thus more and more negative. That many laws are being violented by Amazon in Germany can even be read on Wikipedia nowadays, UK will follow.

Amazon dealt a big damage to me, on which I will have to work for years, in my old age. (67) This is why I will do anything necessary with my lawyer to live in the future. (though an honest extrajudicial association is possible)

EHRLICH PROPHYLAXE - DIAGNOSE & THERAPIE U.G. - Rheingasse 5 - 53113 Bonn/Germany

Amazon is the Google-King in Germany

Google still is the dominant marketing machine. Intensively the Amazon search engine tool is used. The online retailer not only buys the most advertising space, but also appears prominently as the only dealer in the regular search results.

The online retailer Amazon is the company that is by far the most commonly displayed in the Google search. According to calculations by the research firm Searchmetrics for the FOCUS, Amazon ads appeared on the billboards last year up to three times more likely than the next companies advertising (Otto and Ebay). Only on rank 6th the fashion retailer Zalando finds its place, who was, however, significantly less likely to be seen in the second half of the Google advertising than at the beginning of the year.

Amazon is also the company that is most often shown in the search results of normal (organic) Google search. Only the online encyclopedia Wikipedia is better placed. Then Facebook, Chip, Ebay and Youtube follow. The commitment of Amazon pays off: In December alone, Google directed its 105 million users directly to the Amazon Store. Throughout 2012, Amazon has achieved 6.4 billion euros turnover in Germany, but has most recently come under criticism for bad working conditions for seasonal workers.
